

USER STORY 5: ADD GAME TO FAVORITES

As a user,
I want to add a game to my favorites,
so I can have them all in one list and access them better.

ACCEPTANCE CRITERIA:

- When viewing the game page for a game, there should be some sort of button to favorite a game. Clicking this button sends a PUT/POST request to add the game to the user's favorite game list
- Game should be visible from the user's favorite list on their profile
- When accessing the game at a later date, the button should stay "pressed" to indicate the user has already favorited this game
