

USER STORY 3: OPEN GAME PAGE

As a user,
I want to open the page of a game
So I can see more information about it.

WIREFRAME:

ACCEPTANCE CRITERIA:

- On clicking a game from the main page, a pop up (or not pop up, still to be discussed with lecturer) of the game opens up.
- This pop up contains more information about it, like a cover/image, a price, and a purchase button
- There should be a way (little cross on either corner or some other way) to close the pop up and return to the games list.
